

Release notes for Expana Homepage

What's New

Key features:

Homepage

1. Relevant homepage to you
2. View your prices, market commentaries, market updates and news all in one place and with easy access to continue reading or dive into more depth for any section on Expana.
3. Giving you value every time you come into the website.
4. Providing you a snapshot of your prices, with the latest price and a chart showing you the recent price movements
5. Unified News and Editorial Hubs related to what you care about: A new homepage centralizing content from your commodities, with articles produced by our editorial and PRA experts from across the industry giving you a powerful content experience, allowing you to see this every time you open Expana.
6. Prioritized Content Display: Articles are shown in the prioritized order as chosen by our expert editorial team, with high-priority news positioned at the top of the News section, ensuring the most critical information to you readily accessible.
7. Related Articles and Scrolling Commentaries: The homepage now includes related commentaries, updates, and insights in a dedicated section on the right-hand side, providing users with deep market content.

Welcome to Expana
